

# THE MARGINALIZED URBAN ENVIRONMENT AND SOCIAL WORK

Organizer: GLOMISCO

28-29 Augusti  
Östra Mark | Örebro University

# Welcome!

The conference is held in a villa at the end of our Campus. It is called Östra Mark and is located next to an outdoor area with the same name. You can find it by following the Longhouse (L) until it ends. Then you continue straight ahead towards the Academy of Music. When you stand in front of it and look to the right, you will see a white 1910's villa in a small park. It is Eastern Mark. If the description is not sufficient enough the QR code in the right corner can help you.

## Possibility of continued cooperation

All contributions that have been accepted are given the opportunity to, after the conference, be developed into a conference paper and published in the report series Working papers and reports Social Work, with Jessica Jönsson, Rúna í Baianstovu and Matilda Fredriksson as editors. More information will be provided later.

## Day 1
