# INFLAMMATION NIGHT AT CAMPUS USÖ

**Are you curious about inflammation or interested in broadening your network at Örebro University?**

**Join us on October 24th for a casual after work where inflammation is the topic!**

- 16.00** Local inflammation - a bit here and there - Eva Särndahl
- 16.15** How to measure biomarkers for inflammation - Alexander Persson
- 16.45** Needles and haystacks - to find what we are looking for - Dirk Repsilber
- 17.15** From the ambulance to the lab - and back? - Lisa Kurland/Eva Särndahl
- 17.45** How to build an organoid and how to use it - Aidan McGlinchey

Whether you are a well-established PI, researcher, PhD student, or clinical practitioner curious on research in all aspects of inflammation you are equally all welcome!

We will offer some lighter snacks and the bar is open from 18.15 o'clock. The event is in Tidefelt salen at Campus USÖ (X-House) and is free of charge.

**What are your interests? Bring your ideas to the mingle!**

Örebro University's research profile X-HiDE has the overarching aim to establish an internationally competitive Center of Excellence exploring inflammation, using a systems-analytical approach.
