

Programme for Workshop: *Exploring the inflammasome*

- 10.00-10.05** Welcome and Opening remarks
- 10.05-11.00** **Dr. Benoit Briard**, INSERM, University of Tours, France
Inflammasome regulation mechanisms in the context of *Aspergillus fumigatus* infections
- 11.05-11.30** **Dr. Harald Husebye**, NTNU, Norway
The Rab GTPase Rab11b and its effector Rab11-FIP2 are key regulators of the NLRP3 inflammasome
- 13.00-13.30** **Dr. Ida-Maria Sintorn**, Uppsala University
SimSearch – a tool for similarity search in microscopy images
- 13.30-14.00** **Dr. Andi Alijagic**, Örebro University
Cell Painting: an emerging tool for assessing exposure-related health impacts
- 14.00-14.30** FIKA
- 14.30-15.00** **Dr. Anders Johansson**, Umeå University
Inflammasome activation in periodontitis and peri-implantitis
- 15.00-15.30** **Dr. Karin Franzén**, Örebro University
Modulation of inflammatory markers in vascular disease models
- 15.30-16.00** Discussion and Closing remarks

September 26
X4425, Campus USÖ
